RE: Comments on 10/6/2015 Second Notice of Project Change (NPC) by Equity Residential for the Proposed Garden "Bubble" Garage

Dear Mr. McGuire:

I am a West End resident and have lived in our neighborhood for more than 1 years. As you know, all West Enders want to see our neighborhood grow and thrive, and we welcome efforts to positively enhance our community.

Equity Residential recently submitted a second Notice of Project Change (NPC) for its proposal to redevelop the **Garden (Bubble) Garage**. Our West End community has actively participated in all the public and informational meetings of this proposed redevelopment.

We submitted comment letters three times over five years at various stages of the Article 80 Large Project Review Process – **this is our fourth effort**. In our past comments, our neighborhood has overwhelmingly supported redevelopment of the Garden Garage.

We said that we would welcome new development in our neighborhood that was respectful of the scale and character of our homes. We asked the BRA and the developer to look at their proposal each time we commented and to return with changes that addressed those comments:

- Reduce its proposed size and mass so it does not set any new zoning precedents,
- Ensure a fit with the residential buildings in our Charles River Park/West End,
- Reduce the number of garage spaces and address the traffic congestion on our streets,
- Site its building(s) to preserve light, air and views for our residents,
- Do not negatively impact our aging infrastructure or our buildings, and
- Include sufficient on-site affordable and workforce housing.

Our neighborhood's 700+ most recent (April 2015) comment letters on the first Notice of Project Change have yet to be answered or acknowledged, and there have been no meaningful changes made by the developer in this second NPC despite those comments. In fact, the size of this proposed project has increased.

Please hear my voice: I cannot support this current Notice of Project Change. I request that the BRA reject this proposal in its current form and require a meaningful redesign I can support.

RE: Comments on 10/6/2015 Second Notice of Project Change (NPC) by Equity Residential for the Proposed Garden "Bubble" Garage

Dear Mr. McGuire:

I am a West End resident and have lived in our neighborhood for more than 35 years. As you know, all West Enders want to see our neighborhood grow and thrive, and we welcome efforts to positively enhance our community.

Equity Residential recently submitted a second Notice of Project Change (NPC) for its proposal to redevelop the **Garden (Bubble) Garage**. Our West End community has actively participated in all the public and informational meetings of this proposed redevelopment.

We submitted comment letters three times over five years at various stages of the Article 80 Large Project Review Process – **this is our fourth effort**. In our past comments, our neighborhood has overwhelmingly supported redevelopment of the Garden Garage.

We said that we would welcome new development in our neighborhood that was respectful of the scale and character of our homes. We asked the BRA and the developer to look at their proposal each time we commented and to return with changes that addressed those comments:

- Reduce its proposed size and mass so it does not set any new zoning precedents,
- Ensure a fit with the residential buildings in our Charles River Park/West End,
- Reduce the number of garage spaces and address the traffic congestion on our streets,
- Site its building(s) to preserve light, air and views for our residents,
- Do not negatively impact our aging infrastructure or our buildings, and
- Include sufficient on-site affordable and workforce housing.

Our neighborhood's 700+ most recent (April 2015) comment letters on the first Notice of Project Change have yet to be answered or acknowledged, and there have been no meaningful changes made by the developer in this second NPC despite those comments. In fact, the size of this proposed project has increased.

Please hear my voice: I cannot support this current Notice of Project Change. I request that the BRA reject this proposal in its current form and require a meaningful redesign I can support.

RE: Comments on 10/6/2015 Second Notice of Project Change (NPC) by Equity Residential for the Proposed Garden "Bubble" Garage

Dear Mr. McGuire:

I am a West End resident and have lived in our neighborhood for more than 1 years. As you know, all West Enders want to see our neighborhood grow and thrive, and we welcome efforts to positively enhance our community.

Equity Residential recently submitted a second Notice of Project Change (NPC) for its proposal to redevelop the Garden (Bubble) Garage. Our West End community has actively participated in all the public and informational meetings about every iteration of this proposed redevelopment.

We have submitted comment letters three times over five years at various stages of the Article 80 Large Project Review Process – this is our fourth effort. In our past comments, **our neighborhood has overwhelmingly supported redevelopment of the Garden Garage.**

We said that we would welcome new development in our neighborhood that was respectful of the scale and character of our homes. We asked the BRA and the developer to look at their proposal each time we commented and to return with changes that addressed those comments:

- Reduce its proposed size and mass so it does not set any new zoning precedents,
- Ensure a fit with the residential buildings in our Charles River Park/West End,
- Reduce the number of garage spaces in our transit-oriented neighborhood and address the ever-increasing traffic congestion on our few streets,
- Site its building(s) to preserve light, air and views for our homeowners and residents,
- Do not negatively impact our aging infrastructure or our buildings, and
- Include sufficient on-site affordable and (middle class) workforce housing.

Our neighborhood's 700+ most recent (April 2015) comment letters on the first Notice of Project Change have yet to be answered or acknowledged, and there have been no meaningful changes made by the developer in this second NPC despite those comments. In fact, the size of this proposed project has increased.

Please hear my voice: I cannot support this current Notice of Project Change. I request that the BRA reject this proposal in its current form and require a meaningful redesign I can support.

Equity Residential recently submitted a second Notice of Project Change (NPC) for its proposal to redevelop the **Garden (Bubble) Garage**. Our West End community has actively participated in all the public and informational meetings of this proposed redevelopment.

We submitted comment letters three times over five years at various stages of the Article 80 Large Project Review Process – **this is our fourth effort**. In our past comments, our neighborhood has overwhelmingly supported redevelopment of the Garden Garage.

We said that we would welcome new development in our neighborhood that was respectful of the scale and character of our homes. We asked the BRA and the developer to look at their proposal each time we commented and to return with changes that addressed those comments:

- Reduce its proposed size and mass so it does not set any new zoning precedents,
- Ensure a fit with the residential buildings in our Charles River Park/West End,
- Reduce the number of garage spaces and address the traffic congestion on our streets,
- Site its building(s) to preserve light, air and views for our residents,
- Do not negatively impact our aging infrastructure or our buildings, and
- Include sufficient on-site affordable and workforce housing.

Our neighborhood's 700+ most recent (April 2015) comment letters on the first Notice of Project Change have yet to be answered or acknowledged, and there have been no meaningful changes made by the developer in this second NPC despite those comments. In fact, the size of this proposed project has increased.

Please hear my voice: I cannot support this current Notice of Project Change. I request that the BRA reject this proposal in its current form and require a meaningful redesign I can support.

RE: Comments on 10/6/2015 Second Notice of Project Change (NPC) by Equity Residential for the Proposed Garden "Bubble" Garage

Dear Mr. McGuire:

I am a West End resident and have lived in our neighborhood for more than 3 MONTHS years. As you know, all West Enders want to see our neighborhood grow and thrive, and we welcome efforts to positively enhance our community.

Equity Residential recently submitted a second Notice of Project Change (NPC) for its proposal to redevelop the **Garden (Bubble) Garage**. Our West End community has actively participated in all the public and informational meetings of this proposed redevelopment.

We submitted comment letters three times over five years at various stages of the Article 80 Large Project Review Process – **this is our fourth effort**. In our past comments, our neighborhood has overwhelmingly supported redevelopment of the Garden Garage.

We said that we would welcome new development in our neighborhood that was respectful of the scale and character of our homes. We asked the BRA and the developer to look at their proposal each time we commented and to return with changes that addressed those comments:

RE: Comments on 10/6/2015 Second Notice of Project Change (NPC) by Equity Residential for the Proposed Garden "Bubble" Garage

Dear Mr. McGuire:

I am a West End resident and have lived in our neighborhood for more than 7 years. As you know, all West Enders want to see our neighborhood grow and thrive, and we welcome efforts to positively enhance our community.

Equity Residential recently submitted a second Notice of Project Change (NPC) for its proposal to redevelop the **Garden (Bubble) Garage**. Our West End community has actively participated in all the public and informational meetings of this proposed redevelopment.

We submitted comment letters three times over five years at various stages of the Article 80 Large Project Review Process – **this is our fourth effort**. In our past comments, **our neighborhood has overwhelmingly supported redevelopment of the Garden Garage.**

We said that we would welcome new development in our neighborhood that was respectful of the scale and character of our homes. We asked the BRA and the developer to look at their proposal each time we commented and to return with changes that addressed those comments:

- Reduce its proposed size and mass so it does not set any new zoning precedents,
- Ensure a fit with the residential buildings in our Charles River Park/West End,
- Reduce the number of garage spaces and address the traffic congestion on our streets,
- Site its building(s) to preserve light, air and views for our residents,
- Do not negatively impact our aging infrastructure or our buildings, and
- Include sufficient on-site affordable and workforce housing.

Our neighborhood's 700+ most recent (April 2015) comment letters on the first Notice of Project Change have yet to be answered or acknowledged, and there have been no meaningful changes made by the developer in this second NPC despite those comments. In fact, the size of this proposed project has increased.

Please hear my voice: I cannot support this current Notice of Project Change. I request that the BRA reject this proposal in its current form and require a meaningful redesign I can support.

We said that we would welcome new development in our neighborhood that was respectful of the scale and character of our homes. We asked the BRA and the developer to look at their proposal each time we commented and to return with changes that addressed those comments:

- Reduce its proposed size and mass so it does not set any new zoning precedents,
- Ensure a fit with the residential buildings in our Charles River Park/West End,
- Reduce the number of garage spaces and address the traffic congestion on our streets,
- Site its building(s) to preserve light, air and views for our residents,
- Do not negatively impact our aging infrastructure or our buildings, and
- Include sufficient on-site affordable and workforce housing.

Our neighborhood's 700+ most recent (April 2015) comment letters on the first Notice of Project Change have yet to be answered or acknowledged, and there have been no meaningful changes made by the developer in this second NPC despite those comments. In fact, the size of this proposed project has increased.

Please hear my voice: I cannot support this current Notice of Project Change. I request that the BRA reject this proposal in its current form and require a meaningful redesign I can support.

RE: Comments on 10/6/2015 Second Notice of Project Change (NPC) by Equity Residential for the Proposed Garden "Bubble" Garage

Dear Mr. McGuire:

I am a West End resident and have lived in our neighborhood for more than 2 years. As you know, all West Enders want to see our neighborhood grow and thrive, and we welcome efforts to positively enhance our community.

Equity Residential recently submitted a second Notice of Project Change (NPC) for its proposal to redevelop the **Garden (Bubble) Garage**. Our West End community has actively participated in all the public and informational meetings of this proposed redevelopment.

We submitted comment letters three times over five years at various stages of the Article 80 Large Project Review Process – **this is our fourth effort**. In our past comments, our neighborhood has overwhelmingly supported redevelopment of the Garden Garage.

We said that we would welcome new development in our neighborhood that was respectful of the scale and character of our homes. We asked the BRA and the developer to look at their proposal each time we commented and to return with changes that addressed those comments:

- Reduce its proposed size and mass so it does not set any new zoning precedents,
- Ensure a fit with the residential buildings in our Charles River Park/West End,
- Reduce the number of garage spaces and address the traffic congestion on our streets,
- Site its building(s) to preserve light, air and views for our residents,
- Do not negatively impact our aging infrastructure or our buildings, and
- Include sufficient on-site affordable and workforce housing.

Our neighborhood's 700+ most recent (April 2015) comment letters on the first Notice of Project Change have yet to be answered or acknowledged, and there have been no meaningful changes made by the developer in this second NPC despite those comments. In fact, the size of this proposed project has increased.

Please hear my voice: I cannot support this current Notice of Project Change. I request that the BRA reject this proposal in its current form and require a meaningful redesign I can support.

RE: Comments on 10/6/2015 Second Notice of Project Change (NPC) by Equity Residential for the Proposed Garden "Bubble" Garage

Dear Mr. McGuire:

I am a West End resident and have lived in our neighborhood for more than 3 years. As you know, all West Enders want to see our neighborhood grow and thrive, and we welcome efforts to positively enhance our community.

Equity Residential recently submitted a second Notice of Project Change (NPC) for its proposal to redevelop the **Garden (Bubble) Garage**. Our West End community has actively participated in all the public and informational meetings of this proposed redevelopment.

We submitted comment letters three times over five years at various stages of the Article 80 Large Project Review Process – **this is our fourth effort**. In our past comments, **our neighborhood has overwhelmingly supported redevelopment of the Garden Garage.**

We said that we would welcome new development in our neighborhood that was respectful of the scale and character of our homes. We asked the BRA and the developer to look at their proposal each time we commented and to return with changes that addressed those comments:

- Reduce its proposed size and mass so it does not set any new zoning precedents,
- Ensure a fit with the residential buildings in our Charles River Park/West End,
- Reduce the number of garage spaces and address the traffic congestion on our streets,
- Site its building(s) to preserve light, air and views for our residents,
- Do not negatively impact our aging infrastructure or our buildings, and
- Include sufficient on-site affordable and workforce housing.

Our neighborhood's 700+ most recent (April 2015) comment letters on the first Notice of Project Change have yet to be answered or acknowledged, and there have been no meaningful changes made by the developer in this second NPC despite those comments. In fact, the size of this proposed project has increased.

Please hear my voice: I cannot support this current Notice of Project Change. I request that the BRA reject this proposal in its current form and require a meaningful redesign I can support.

ADDITIONAL COMMENT: All the construction is destroying the character of the area. we are not New York City

CC: Mayor Martin J. Walsh, BRA Director Brian Golden; Councilor Josh Zakim; State Representative James Livingstone; Director of Development Review and Policy Jon Greeley; Council President William Linehan; Councilors At Large: Ayanna Pressley, Michelle Wu and Anissa Essaibi George

The traffic is horrendous and all will be overbuilt - Mayor Menino labeled the project and said "no! if we don't want it"
