RE: Comments on 10/6/2015 Second Notice of Project Change (NPC) by Equity Residential for the Proposed Garden "Bubble" Garage

Dear Mr. McGuire:

I am a West End resident and have lived in our neighborhood for more than 15 years. As you know, all West Enders want to see our neighborhood grow and thrive, and we welcome efforts to positively enhance our community.

Equity Residential recently submitted a second Notice of Project Change (NPC) for its proposal to redevelop the **Garden (Bubble) Garage**. Our West End community has actively participated in all the public and informational meetings of this proposed redevelopment.

We submitted comment letters three times over five years at various stages of the Article 80 Large Project Review Process – **this is our fourth effort**. In our past comments, **Our neighborhood has overwhelmingly supported redevelopment of the Garden Garage.**

We said that we would welcome new development in our neighborhood that was respectful of the scale and character of our homes. We asked the BRA and the developer to look at their proposal each time we commented and to return with changes that addressed those comments:

- Reduce its proposed size and mass so it does not set any new zoning precedents,
- Ensure a fit with the residential buildings in our Charles River Park/West End,
- Reduce the number of garage spaces and address the traffic congestion on our streets,
- Site its building(s) to preserve light, air and views for our residents,
- Do not negatively impact our aging infrastructure or our buildings, and
- Include sufficient on-site affordable and workforce housing.

Our neighborhood's 700+ most recent (April 2015) comment letters on the first Notice of Project Change have yet to be answered or acknowledged, and there have been no meaningful changes made by the developer in this second NPC despite those comments. In fact, the size of this proposed project has increased.

Please hear my voice: I cannot support this current Notice of Project Change. I request that the BRA reject this proposal in its current form and require a meaningful redesign I can support.

RE: Comments on 10/6/2015 Second Notice of Project Change (NPC) by Equity Residential for the Proposed Garden "Bubble" Garage

Dear Mr. McGuire:

I am a West End resident and have lived in our neighborhood for more than 33 years. As you know, all West Enders want to see our neighborhood grow and thrive, and we welcome efforts to positively enhance our community.

Equity Residential recently submitted a second Notice of Project Change (NPC) for its proposal to redevelop the Garden (Bubble) Garage. Our West End community has actively participated in all the public and informational meetings about every iteration of this proposed redevelopment.

We have submitted comment letters three times over five years at various stages of the Article 80 Large Project Review Process – this is our fourth effort. In our past comments, **our neighborhood has overwhelmingly supported redevelopment of the Garden Garage.**

We said that we would welcome new development in our neighborhood that was respectful of the scale and character of our homes. We asked the BRA and the developer to look at their proposal each time we commented and to return with changes that addressed those comments:

- Reduce its proposed size and mass so it does not set any new zoning precedents,
- Ensure a fit with the residential buildings in our Charles River Park/West End,
- Reduce the number of garage spaces in our transit-oriented neighborhood and address the ever-increasing traffic congestion on our few streets,
- Site its building(s) to preserve light, air and views for our homeowners and residents,
- Do not negatively impact our aging infrastructure or our buildings, and
- Include sufficient on-site affordable and (middle class) workforce housing.

Our neighborhood's 700+ most recent (April 2015) comment letters on the first Notice of Project Change have yet to be answered or acknowledged, and there have been no meaningful changes made by the developer in this second NPC despite those comments. In fact, the size of this proposed project has increased.

Please hear my voice: I cannot support this current Notice of Project Change. I request that the BRA reject this proposal in its current form and require a meaningful redesign I can support.

RE: GARDEN GARAGE PROJECT

Dear Mr. McGuire:

I am a resident of Charles River Park and have lived here since 2008, owning since 2009. I previously lived here from 1995 through 2003; clearly when the opportunity came to move again, I chose to return to Charles River Park. There are many factors, as you know, that go into choosing where one wants to live. As a senior, I required a convenient, easy and safe environment; as an active senior, I required access to artistic and recreational activities, the opportunity to walk to work until my recent retirement and to various activities, and Charles River Park's offering of outdoor park-like living.

I fear the construction as planned will remove some of the enjoyment and even value of my home. The proposed size is most definitely not in accordance with existing structures and not in accordance with promises that I understand were made by Mayor Menino in 2009. Besides being an eyesore, the size as planned will affect the 'feel' as well as the actual light of those of us who call this neighborhood home and who walk Thoreau Path on a daily (if not more often) basis. I trust this issue, which is a concern of many who live here, will be considered, and hopefully a building more in unison in size with the current structures will be the result.

I also strongly object to what I understand is the removal of both Basketball City and two tennis courts without the plan to replace them with comparable community recreational facilities. This seems unconscionable to me, particularly given the concept that this is and should remain a FAMILY-friendly neighborhood.

A further and most critical concern is the increased traffic pattern the additional residents and parking spaces will present. As it is, there are times you simply cannot merge onto Martha Road from Whittier Place, and it can easily take 15-30 minutes before you can get past the parking garage. Normally, this is an inconvenience, which can be extremely annoying on an ongoing basis, but please keep in mind our proximity to Mass General Hospital and the frequency of ambulances driving this road. Increased traffic equals an increased risk of these ambulances being delayed, sometimes in a life and death situation. In fact, I left 6 Whittier at around noon today, and watched as an ambulance had trouble getting down the street. Later, at around 1:00, I witnessed a fire engine having the same difficulty. The traffic had been at a bottleneck the entire time. I would hope an alternate exit will be considered.

As a resident who plans on living here for the rest of my life and as a taxpayer, I expect my fears and concerns to be very seriously taken into consideration by all who are involved in the decision-making regarding this issue.

I appreciate your time in reading and considering my thoughts.

Very truly yours,

Jacqueline Soroko

Equity Residential recently submitted a second Notice of Project Change (NPC) for its proposal to redevelop the **Garden (Bubble) Garage**. Our West End community has actively participated in all the public and informational meetings of this proposed redevelopment.

We submitted comment letters three times over five years at various stages of the Article 80 Large Project Review Process – **this is our fourth effort**. In our past comments, our neighborhood has overwhelmingly supported redevelopment of the Garden Garage.

We said that we would welcome new development in our neighborhood that was respectful of the scale and character of our homes. We asked the BRA and the developer to look at their proposal each time we commented and to return with changes that addressed those comments:

- Reduce its proposed size and mass so it does not set any new zoning precedents,
- Ensure a fit with the residential buildings in our Charles River Park/West End,
- Reduce the number of garage spaces and address the traffic congestion on our streets,
- Site its building(s) to preserve light, air and views for our residents,
- Do not negatively impact our aging infrastructure or our buildings, and
- Include sufficient on-site affordable and workforce housing.

Our neighborhood's 700+ most recent (April 2015) comment letters on the first Notice of Project Change have yet to be answered or acknowledged, and there have been no meaningful changes made by the developer in this second NPC despite those comments. In fact, the size of this proposed project has increased.

Please hear my voice: I cannot support this current Notice of Project Change. I request that the BRA reject this proposal in its current form and require a meaningful redesign I can support.

RE: Comments on 10/6/2015 Second Notice of Project Change (NPC) by Equity Residential for the Proposed Garden "Bubble" Garage

Dear Mr. McGuire:

I am a West End resident and have lived in our neighborhood for more than 45 years. As you know, all West Enders want to see our neighborhood grow and thrive, and we welcome efforts to positively enhance our community.

Equity Residential recently submitted a second Notice of Project Change (NPC) for its proposal to redevelop the **Garden (Bubble) Garage**. Our West End community has actively participated in all the public and informational meetings of this proposed redevelopment.

We submitted comment letters three times over five years at various stages of the Article 80 Large Project Review Process – **this is our fourth effort**. In our past comments, our neighborhood has overwhelmingly supported redevelopment of the Garden Garage.

We said that we would welcome new development in our neighborhood that was respectful of the scale and character of our homes. We asked the BRA and the developer to look at their proposal each time we commented and to return with changes that addressed those comments:

- Reduce its proposed size and mass so it does not set any new zoning precedents,
- Ensure a fit with the residential buildings in our Charles River Park/West End,
- Reduce the number of garage spaces and address the traffic congestion on our streets,
- Site its building(s) to preserve light, air and views for our residents,
- Do not negatively impact our aging infrastructure or our buildings, and
- Include sufficient on-site affordable and workforce housing.

Our neighborhood's 700+ most recent (April 2015) comment letters on the first Notice of Project Change have yet to be answered or acknowledged, and there have been no meaningful changes made by the developer in this second NPC despite those comments. In fact, the size of this proposed project has increased.

Please hear my voice: I cannot support this current Notice of Project Change. I request that the BRA reject this proposal in its current form and require a meaningful redesign I can support.

RE: Comments on 10/6/2015 Second Notice of Project Change (NPC) by Equity Residential for the Proposed Garden "Bubble" Garage

Dear Mr. McGuire:

I am a West End resident and have lived in our neighborhood for more than 20 years. As you know, all West Enders want to see our neighborhood grow and thrive, and we welcome efforts to positively enhance our community.

Equity Residential recently submitted a second Notice of Project Change (NPC) for its proposal to redevelop the **Garden (Bubble) Garage**. Our West End community has actively participated in all the public and informational meetings of this proposed redevelopment.

We submitted comment letters three times over five years at various stages of the Article 80 Large Project Review Process – **this is our fourth effort**. In our past comments, our neighborhood has overwhelmingly supported redevelopment of the Garden Garage.

We said that we would welcome new development in our neighborhood that was respectful of the scale and character of our homes. We asked the BRA and the developer to look at their proposal each time we commented and to return with changes that addressed those comments:

- Reduce its proposed size and mass so it does not set any new zoning precedents,
- Ensure a fit with the residential buildings in our Charles River Park/West End,
- Reduce the number of garage spaces and address the traffic congestion on our streets,
- Site its building(s) to preserve light, air and views for our residents,
- Do not negatively impact our aging infrastructure or our buildings, and
- Include sufficient on-site affordable and workforce housing.

Our neighborhood's 700+ most recent (April 2015) comment letters on the first Notice of Project Change have yet to be answered or acknowledged, and there have been no meaningful changes made by the developer in this second NPC despite those comments. In fact, the size of this proposed project has increased.

Please hear my voice: I cannot support this current Notice of Project Change. I request that the BRA reject this proposal in its current form and require a meaningful redesign I can support.

- Do not negatively impact our aging infrastructure or our buildings, and
- Include sufficient on-site affordable and workforce housing.

Our neighborhood's 700+ most recent (April 2015) comment letters on the first Notice of Project Change have yet to be answered or acknowledged, and there have been no meaningful changes made by the developer in this second NPC despite those comments. In fact, the size of this proposed project has increased.

Please hear my voice: I cannot support this current Notice of Project Change. I request that the BRA reject this proposal in its current form and require a meaningful redesign I can support.

RE: Comments on 10/6/2015 Second Notice of Project Change (NPC) by Equity Residential for the Proposed Garden "Bubble" Garage

Dear Mr. McGuire:

I am a West End resident and have lived in our neighborhood for more than 1 years. As you know, all West Enders want to see our neighborhood grow and thrive, and we welcome efforts to positively enhance our community.

Equity Residential recently submitted a second Notice of Project Change (NPC) for its proposal to redevelop the **Garden (Bubble) Garage**. Our West End community has actively participated in all the public and informational meetings of this proposed redevelopment.

We submitted comment letters three times over five years at various stages of the Article 80 Large Project Review Process – **this is our fourth effort**. In our past comments, our neighborhood has overwhelmingly supported redevelopment of the Garden Garage.

We said that we would welcome new development in our neighborhood that was respectful of the scale and character of our homes. We asked the BRA and the developer to look at their proposal each time we commented and to return with changes that addressed those comments:

- Reduce its proposed size and mass so it does not set any new zoning precedents,
- Ensure a fit with the residential buildings in our Charles River Park/West End,
- Reduce the number of garage spaces and address the traffic congestion on our streets,
- Site its building(s) to preserve light, air and views for our residents,
- Do not negatively impact our aging infrastructure or our buildings, and
- Include sufficient on-site affordable and workforce housing.

Our neighborhood's 700+ most recent (April 2015) comment letters on the first Notice of Project Change have yet to be answered or acknowledged, and there have been no meaningful changes made by the developer in this second NPC despite those comments. In fact, the size of this proposed project has increased.

Please hear my voice: I cannot support this current Notice of Project Change. I request that the BRA reject this proposal in its current form and require a meaningful redesign I can support.

- Reduce the number of garage spaces and address the traffic congestion on our streets,
- Site its building(s) to preserve light, air and views for our residents,
- Do not negatively impact our aging infrastructure or our buildings, and
- Include sufficient on-site affordable and workforce housing.

Our neighborhood's 700+ most recent (April 2015) comment letters on the first Notice of Project Change have yet to be answered or acknowledged, and there have been no meaningful changes made by the developer in this second NPC despite those comments. In fact, the size of this proposed project has increased.

Please hear my voice: I cannot support this current Notice of Project Change. I request that the BRA reject this proposal in its current form and require a meaningful redesign I can support.

RE: Comments on 10/6/2015 Second Notice of Project Change (NPC) by Equity Residential for the Proposed Garden "Bubble" Garage

Dear Mr. McGuire:

I am a West End resident and have lived in our neighborhood for more than 15 years. As you know, all West Enders want to see our neighborhood grow and thrive, and we welcome efforts to positively enhance our community.

Equity Residential recently submitted a second Notice of Project Change (NPC) for its proposal to redevelop the **Garden (Bubble) Garage**. Our West End community has actively participated in all the public and informational meetings of this proposed redevelopment.

We submitted comment letters three times over five years at various stages of the Article 80 Large Project Review Process – **this is our fourth effort**. In our past comments, our neighborhood has overwhelmingly supported redevelopment of the Garden Garage.

We said that we would welcome new development in our neighborhood that was respectful of the scale and character of our homes. We asked the BRA and the developer to look at their proposal each time we commented and to return with changes that addressed those comments:

- Reduce its proposed size and mass so it does not set any new zoning precedents,
- Ensure a fit with the residential buildings in our Charles River Park/West End,
- Reduce the number of garage spaces and address the traffic congestion on our streets,
- Site its building(s) to preserve light, air and views for our residents,
- Do not negatively impact our aging infrastructure or our buildings, and
- Include sufficient on-site affordable and workforce housing.

Our neighborhood's 700+ most recent (April 2015) comment letters on the first Notice of Project Change have yet to be answered or acknowledged, and there have been no meaningful changes made by the developer in this second NPC despite those comments. In fact, the size of this proposed project has increased.

Please hear my voice: I cannot support this current Notice of Project Change. I request that the BRA reject this proposal in its current form and require a meaningful redesign I can support.

RE: Comments on 10/6/2015 Second Notice of Project Change (NPC) by Equity Residential for the Proposed Garden "Bubble" Garage

Dear Mr. McGuire:

I am a West End resident and have lived in our neighborhood for more than 22 years. As you know, all West Enders want to see our neighborhood grow and thrive, and we welcome efforts to positively enhance our community.

Equity Residential recently submitted a second Notice of Project Change (NPC) for its proposal to redevelop the **Garden (Bubble) Garage**. Our West End community has actively participated in all the public and informational meetings of this proposed redevelopment.

We submitted comment letters three times over five years at various stages of the Article 80 Large Project Review Process – **this is our fourth effort**. In our past comments, our neighborhood has overwhelmingly supported redevelopment of the Garden Garage.

We said that we would welcome new development in our neighborhood that was respectful of the scale and character of our homes. We asked the BRA and the developer to look at their proposal each time we commented and to return with changes that addressed those comments:

- Reduce its proposed size and mass so it does not set any new zoning precedents,
- Ensure a fit with the residential buildings in our Charles River Park/West End,
- Reduce the number of garage spaces and address the traffic congestion on our streets,
- Site its building(s) to preserve light, air and views for our residents,
- Do not negatively impact our aging infrastructure or our buildings, and
- Include sufficient on-site affordable and workforce housing.

Our neighborhood's 700+ most recent (April 2015) comment letters on the first Notice of Project Change have yet to be answered or acknowledged, and there have been no meaningful changes made by the developer in this second NPC despite those comments. In fact, the size of this proposed project has increased.

Please hear my voice: I cannot support this current Notice of Project Change. I request that the BRA reject this proposal in its current form and require a meaningful redesign I can support.
