Re: Support for the Boston Garden Development Project

Dear Mr. Fitzgerald,

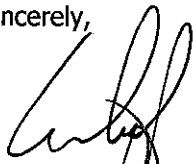

I am writing to you in an effort to show my support for the planned Boston Garden Development Project, currently proposed by Boston Properties and Delaware North Companies at 80 Causeway Street in Boston.

As I am sure you are aware this area of the City is one which has undergone tremendous redevelopment over the course of the last 10 or so years, including the demolition of the overhead Green Line tracks, the addition of West End Place to the neighborhood, the conversion of the old Charles Street Jail to the Liberty Hotel, the redevelopment of Emerson and Longfellow Places, and countless other area projects.

In addition to these completed projects, there are currently numerous new residential projects in progress along the Causeway Street corridor, all of which will serve to make this area a vibrant community, full of activity across all time periods. In addition to the life benefits which will be felt by all in community, these projects serve to promote jobs within the market as well as providing much needed commerce.

I believe that this project will help to provide a needed link between the businesses on either side of Causeway Street, and will prove to be a very positive addition for the City of Boston. I am proud to support this project and ask that you please include my name in favor of it.

Sincerely,

Sean Lampert
