Mr. Edward McGuire
Project Manager
Boston Redevelopment Authority- One City Hall
9th Floor Boston, Ma. 02201

Re: Garden Garage Development

Dear Mr. McGuire:

On behalf of Equity Residential, I am pleased to submit this package of documented public support for the redevelopment of the Garden Garage from residents of the West End as well as local neighborhood associations, Boards and elected officials.

This outpouring of grass roots support for the project is illustrated with signatures from over **1,000 current residents** of the West End. This is especially significant and since the project was initiated in the spring of 2008, there has evolved widespread support across the community through the efforts of many city officials and local residents.

Over the past six years, the project has evolved based on community input and in its final version, brings forth a plan with significantly fewer impacts on its neighbors than the existing garage. This has been accomplished by a reduction of over 75,000 gross square feet and a substantially smaller building footprint in comparison to the last version of two separate and distinct buildings. In doing so, Equity Residential is creating a new one acre public park that will create a valued unifying public space for all of the residents in the same manner and scale that the Post Office Square Park has done for the workers in that area.

This dynamic new design will improve the quality of life with highly detailed architecture, reduced scale and creative positioning of the building. The design program modifications, as outlined in the Notice of Project Change, also mitigate the impact of shadows and actually create more sunlight onto the new public open space and Thoreau Path. Moreover, placing all of the parking below grade will greatly enhance the immediate environment, providing greater control over vehicular traffic in terms of noise and aesthetics.

We believe this project will not add incrementally to the transportation issues in the area as the residents of these properties, both the condominiums and apartments alike, live in the West End. This fact suggest that residents can live near both public transportation and work, and leave their cars "warehoused" most of the week, thus not adding to any service decline during peak traffic hours. Nonetheless, we would, as part of any mitigation plan for our project, be a willing participant in any City led effort by the Department of Public Works, the Boston Transportation Department, the BRA and elected officials to create a final solution to the existing remnants of streets and sidewalks to maximize the efficiency of cars and pedestrian traffic on both normal days and for Garden events.

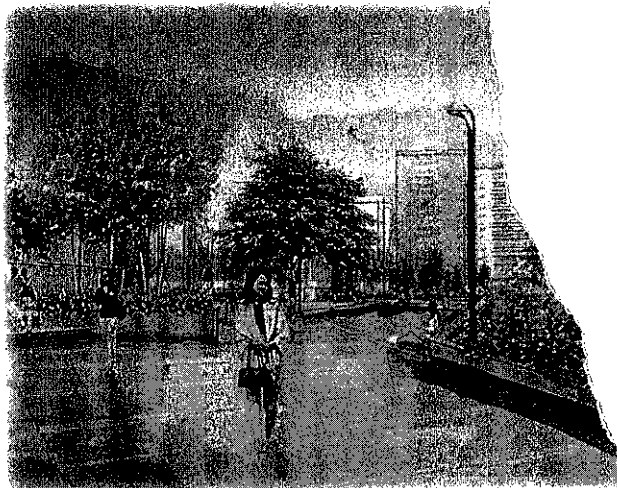

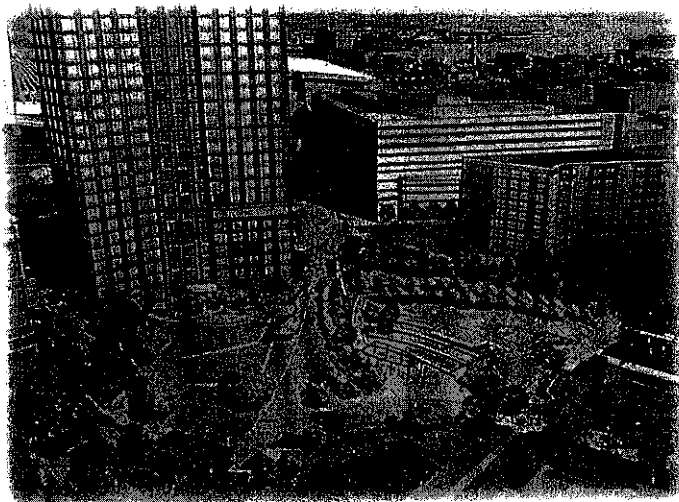

The extensive support from so many of the West End residents for this development speaks to the fact that we have undertaken a measured and comprehensive effort for the City, the neighborhood and our company. We look forward to continuing to work with you and all members of the broader West End community as we advance the development in the coming weeks. Thank you for your assistance.

Sincerely,

A handwritten signature in black ink, appearing to read "Richard L. Boales", written over a horizontal line.

Richard L. Boales
Senior Vice President - Development

CC: Mayor Martin Walsh
Acting Director Brian Golden
Erico Lopez
Heather Campisano
Josh Zakim
Councilor Michael Flaherty
Councilor Stephen Murphy
Rep. Jay Livingstone

We enthusiastically support a new residential building at the site of the existing Garden Garage. The new building will host a 486 rental units and provide a new one-acre park in the West End neighborhood.
