PLAN: Dorchester, Glover's Corner

The **PLAN: Dorchester, Glover's Corner** planning initiative is a comprehensive effort in partnership with the community. The initiative is staffed by a planning team consisting of an interdepartmental working group from across City departments and state transportation agencies.

"Preserve, enhance, and grow" are the three lenses by which the Study Area will be examined to determine a vision for the future Glover's Corner. Community discussions will focus on guidelines for future development and open space, as well as strategies to enhance existing businesses and residential communities.

As the first phase of this process, we have launched a **Question Campaign** to learn about the issues important to you. Please submit your question on the back of this sheet or through the **PLAN: Glover's Corner** website. Your input will help us shape this initiative, and will form the basis for questions we will try to solve together through the planning process.
