00:23:27 Dan Jaffe: What is the status of the flood mitigation along the harbor edge?

00:24:30 Rebecca Tomasovic: @Dan Jaffe We have a consultant team on Board to assist in concept level design work for a coastal resilient solution and they are currently doing due diligence on existing site conditions

00:27:25 Chris Nicodemus: Is it the extent of the brownfield challenge that contributed to the failure of the prior project, or another factor that would impact future proposals?

00:50:50 Gerald Keusch: Natalie, could you increase the volume on your mike as it is hard to hear you. Thanks

00:51:34 Natalie Deduck: Apologies! Thanks for letting me know

01:00:30 Kathia Capellupo: Thank you
