Next Steps
Next Steps

• Issue a new RFP in a fair and transparent process
• Use PLAN: Nubian principles and evaluation criteria as a starting point
• Move quickly to deliver for the community
• Use lessons learned to set the project up for success
PLAN: Nubian Square Development Principles

- **Consistency with area planning history**: Roxbury Strategic Master Plan, Dudley Vision, Cultural District. Development as a catalyst to promote the arts, culture, education, commercial, and retail enterprise.

- **Economic development**: Promote local business and job creation, providing maximum opportunities for local, small and disadvantaged businesses and job creation and training for people of color and women.

- **Affordable housing**: Two-thirds of housing units must be income-restricted affordable housing, with one third targeting low and moderate income households and one third targeting middle income households.

- **Sustainable, resilient, and healthy development**: Proposals should exemplify the community’s and the City’s goals for sustainable, resilient and healthy new construction including Mayor Walsh’s Carbon Neutral Boston 2050 commitment. Proposals should target net zero energy or net zero carbon performance.

- **Development without displacement**: Proposed developments must assist the current residents of Roxbury to afford to remain living in their community and to find pathways to economic opportunity.

- **Good Jobs Standards**: Proposal developments must support good permanent jobs at site and engage in fair hiring practices which will support the participation of people of Roxbury and Nubian Square.

- **Diversity and Inclusion**: Proponents must include a plan for creating increased opportunities for people of color, women, and M/WBEs to participate in the development.
