76.7% of young adults are labor force participants, compared to 68.9% of the total Boston population ages 18 and over.

**Employment Status of Young Adults**

- **70.3%** Employed
- **23.2%** Not in labor force
- **6.4%** Unemployed

Source: U.S. Census Bureau, 2014 1-year American Community Survey, PUMS, BRA Research Division Analysis
Only 36.5% of young adults commute to work by car, compared to 44.6% of all employed residents over age 18, although 70% of young adults live in a household with at least one motor vehicle.

The share of young adult workers that commute by car, truck, or van has been falling for the past several decades – in 1980 it was 45%.

Commute Mode - 2014

Source: U.S. Census Bureau, 2014 1-year American Community Survey, IPUMS, BRA Research Division Analysis
- The median personal income of employed young adults is $35,000 a year, compared to $40,000 for all employed Boston residents

- School enrollment affects the income of young adults: the median personal income of employed young adults who are enrolled in school is only $9,000 a year

Source: U.S. Census Bureau, 2014 1-year American Community Survey, PUMS, BRA Research Division Analysis
The median household income of households with a householder ages 18-34 is $63,000 compared to $55,800 for all Boston households.

Household Income 2014

Source: U.S. Census Bureau, 2014 1-year American Community Survey, IPUMS, BRA Research Division Analysis
Note: The Householder is the person in whose name the housing unit is owned or rented. If it is owned or rented jointly, either person could be designated the householder. Household income includes the income of everyone in the household, including roommates and other non-family members.
College or university enrollment may temporarily cause young adults to live in poverty - the poverty rate for young adult students living off-campus is 62.6%

However, young adults ages 28 to 34, most of whom have finished school and entered full-time employment, have low poverty rates.

Note: Poverty rate calculations do not include the Group Quarters (dormitory) Population and are based on family income, size, and composition.

Source: U.S. Census Bureau, 2014 1-year American Community Survey, PUMS, BRA Research Division Analysis
- Young adults are most likely to be the householder or the partner or friend of the householder, although 19% live with a parent or grandparent.

- 14.7% of young adults and 7.2% of the total population live in group quarters, mostly dormitories.

**Relationship to Householder 2014**

![Relationship to Householder Chart]
