Plan for a Climate-Resilient Neighborhood

All groups felt that in order to realize other priorities, planning for climate resiliency should be an overarching priority.

Additional Notes on Priorities

Supporting local, small businesses with an emphasis on providing neighborhood amenities was one of the emerging priorities. Future development can provide new quality jobs and career pathways for residents.

Creating an active, people-centric district that supports the cultural diversity of the neighborhood was one of the emerging priorities.

Summary of Emerging Priorities

Highest Priority

Create housing for a range of income levels

Creating new housing for a range of income levels emerged as a top priority. The discussion focused on creating income-restricted housing options in addition to market-rate housing. Maintaining neighborhood stability and affordability for existing area residents was an important factor.

Overarching Priority

Plan for a Climate-Resilient Neighborhood

All groups felt that in order to realize other priorities, planning for climate resiliency should be an overarching priority.

Instructions

Everyone started with a deck with 16 priority statements and 1 blank, additional priority. The prioritization exercise consisted of 3 steps.

1. Choose 3 individually

Everyone chose his/her top 3 priorities and placed them on the board in the middle of the table.

2. Choose 5 together

After discussing, the table chose 5 priorities as a team. The top 5 priorities worked together as a set.

3. Share and present

Someone from each table volunteered to present the group’s top 5 priorities.

How We Did

Objective
Each table as a team selected the top five shared priorities.
