"Meaningful Actions. Significant decisions and other actions in the development process, including unit mix, affordability levels, allocation of financial mitigation, transportation planning, and other decisions that are designed, and can be reasonably expected, to achieve a material positive change for Boston residents and affirmatively further fair housing."

"AFFH Assessment Component. This includes completion of 1) the most recent version of the Assessment Tool, with a copy provided to the Boston Redevelopment Authority (d/b/a Boston Planning and Development Agency or BPDA) and the BIFDC, which shall provide to the Proponent a Displacement Risk Analysis and Historical Exclusion Analysis 2) an Affirmative Fair Housing Marketing Requirement 3) and a description of which measures from the most recent version of the AFFH Intervention Options, as adopted by the Boston Redevelopment Authority, the Proponent intends to utilize to address displacement and affirmatively create housing accessible to people within protected classes. These measures should be commensurate with the size and scope of the project, as well as the magnitude of historical exclusion and potential displacement, and shall be reviewed by the BIFDC, which shall advise the Boston Redevelopment Authority on the Proposed Project’s compliance with the provisions of this article."

"Analysis of Impediments. A review of potential actions, omissions, conditions, or decisions that have the effect of restricting housing choices or the availability of housing choices on the basis of age, color, creed, disability, gender identity, marital status, familial status, national origin, race, religion, sex, sexual orientation, presence or absence of dependents, or public
assistance and/or source of income including but not limited to any other protected classes listed under Chapter 151B of the Massachusetts General Laws; policies, practices, or procedures that appear neutral on their face, but which operate to deny or adversely affect the availability of housing to protected classes; and accompanying corrective actions designed to overcome such impediments."

"Boston Interagency Fair Housing Development Committee ("BIFDC"). Comprised of representatives from the Boston Housing Authority (BHA), Office of Fair Housing and Equity ("OFHE"), Department of Neighborhood Development ("DND"), the Mayor’s Commission for Persons with Disabilities, and the Boston Redevelopment Authority staff ("BRA") for a total of five. The BIFDC shall meet regularly to review the assessment components, proposals, and public comments, and develop a plan for ongoing monitoring of commitments and reporting requirements for the Proponent and/or successors and assignees and make recommendations to the BRA Board."

"Protected classes. Individuals or groups who are entitled to protection from discrimination or other adverse action, or to affirmative accommodations, opportunities, or protections, pursuant to federal, state, and local civil rights and fair housing laws including but not limited to protected classes listed under M.G.L. c. 151B of the Massachusetts General Laws."

"Displacement. Unwilling or coerced departure, removal or economic dislocation, in a community or in an adjacent and impacted community, occurring when neighborhood choices become limited due to increasing rent burden or a lack of housing that is affordable to area residents, area renters, low-income residents, or residents belonging to protected class or a set of protected classes, thereby restricting housing choice for the impacted population."

"Displacement Risk Analysis. Defined as when the Proposed Project runs an elevated risk of directly or indirectly displacing current residents, or residents of neighboring or nearby areas, including disproportionately displacing members of protected classes, and shall be measured by data provided by the Boston Redevelopment Authority to Proponents."

"Historical Exclusion Analysis. Defined as when explicit discrimination based on race or membership of other Protected Classes, or correlative economic factors have perpetuated housing segregation and excluded members of Protected Classes from living in the neighborhood, and it shall be measured by data provided by the Boston Redevelopment Authority to Proponents."

"Affirmatively Integrated Communities. Where a diverse set of people, including those that belong to Protected Classes, can afford to live and where they have reasonable access to amenities (e.g. healthcare, transit, groceries, banking, greenspace), educational opportunities, and
economic opportunities. Reasonable access means that such amenities and opportunities are affordable, in close proximity to one’s housing, and culturally appropriate.
