

Num	Paper or Online	GlobalID	Creation Date	Scenario 2 prioritizes the creation of a greater number of consolidated open spaces with the potential to support sports fields in Charlestown, at the expense of some of the green corridor and new multi-use paths that Scenario 1 provides. Understanding this trade-off, open space configuration do you prefer?	What else would you like to share about park planning in Charlestown?	Where do you want to see new parks?
1	Online	7c71cf51-2f10-4c30-8cb9-5fd7cfb69de	7/20/22	Strong preference for consolidated open spaces	linear parks have too much momentum and movement, and are great because of the trees but that's how our streets should look so please include open spaces with good trees like Dana Park in Cambridge	
2	Online	644ac035-e878-4e28-88b3-a38f51cddbe4	7/21/22	Strong preference for linear parks	I think green corridors are very important as they will help provide shelter from ever increasing temperatures as people transit Charlestown. I would also like to see green corridor improvements to existing streets like Bunker Hill, Main, and High to help increase the tree canopy along the street. Additionally, green corridors will be extremely important along Rutherford, Bunker Hill Industrial Park, and throughout Sullivan Sq to make walking on hot days more hospitable.	
3	Online	b4d7a64c-09a9-4ecc-8cea-bad98d9d530b	7/21/22	A healthy mix of both where possible		
4	Online	df8ce4d7-5cf0-4fe9-89c7-4f4095613319	7/22/22	A healthy mix of both where possible	Is there a way to get more trees along the exiting streets- they provide shade in the summer. They also look lovely. For example, there seem to be more trees along streets in Beacon Hill than Charlestown.	The area of community College, along the Music River and along Rutherford Ave.
5	Online	60ee53a9-0d54-4256-8fe5-26e1a6208ec4	7/22/22	A healthy mix of both where possible	We need more trees along the streets. There are more trees I think in Beacon Hill than in Charlestown and we are equally crowded.	Community College, Rutherford Ave and Mystic River
6	Online	7fc66d59-d34b-44e5-8500-c9d3bb17a65a	7/22/22	Some preference for linear parks	There is space to put a connection to the Sullivan Square train entrance on the Lost Village side of I-93. This would connect the new Somerville walking path directly to Sullivan Square access	I want to see more parks at the end of Parker St in the Lost Village because this area currently experiences high heat island affect due to the highways and flat industrial space. The green space will not only make the area feel more welcoming, but it will reduce environmental impacts.
7	Online	9a03ea82-bc80-4aa6-8a5c-a4b94d364f17	7/22/22	Strong preference for consolidated open spaces	Please turn over the high school turf fields into grass fields. They are better for the environment and our children's lungs.	Shrafts parking lots/space would be wonderful new green spaces. Real grass for kids to run on, not dog parks.
8	Online	903e5685-6d0c-4465-89dd-74e90cfaefd0	7/23/22	Some preference for consolidated open spaces	equity in placement of green spaces to be truly accessible to higher need areas so that all members of Charlestown have access to green space.	
9	Online	73b25d0b-822c-4b76-8414-978b2d781336	7/23/22	Strong preference for linear parks		
10	Online	aa194fc8-e73e-4987-87e3-05b53af64464	7/23/22	A healthy mix of both where possible	There are strengths and weaknesses to both scenarios, be willing to combine the best of both. the two pedestrian connections to Somerville in scenario 1 are better but the placement of the one connection in the second scenario is better. Improve this by making the northern connection in scenario 1 connect to the Charles to Mystic path. The larger parks of scenario two, especially near the river are better but the greenway going all the way to Alfred St is better in scenario one. These things need not conflict.	Near the river.
11	Online	9a9143b4-53c2-45e1-8ac1-fde7e5397718	7/23/22	Strong preference for linear parks	We need more open GREEN SPACE with trees and benches and SHADE features. We need to ensure there are adequate trash barrels and it is collected. The fact the Clougherty Pool was closed at the start of the summer 2022 season is DISGRACEFUL. It robbed many children and adults of the only place they could go to cool off, exercise, enjoy community and enjoy that is used by the entire community!	Extend existing parks to create more concentrated green space -- green space particularly adjacent to the water would restore Charlestown's water access -- see old Dewey Beach info - where you are thinking to extend Doherty Park.
12	Online	28c3ab45-a7b2-4137-8e92-31581aac18fc	7/25/22	Strong preference for linear parks	The City should look at connecting parks to the linear green streets and making a connected and shady network of streets and parks throughout the neighborhood.	I want more green streets - there are a lot of parks in what is already a small neighborhood, and so we need cooler streets and safe transportation. We need as much support for active transportation as possible.
13	Online	a282664b-e22a-4f78-84d0-cfeb3cfa261a	7/26/22	Strong preference for linear parks		extend Doherty park to water and preserve Olmsted's vision
14	Online	105cb5c1-a3d1-4240-8478-adaf66f0f542	7/26/22	Some preference for consolidated open spaces		BHCC Parking lot, along the river
15	Online	6ddaa02d-af9f-4773-899c-9099d25cdabb	7/27/22	Some preference for consolidated open spaces	I think the extension of the Doherty Park in scenario 2 is a great idea, I think it would be great to combine that with the green corridor proposed in scenario 1	Along the Mystic River, Bunker Hill Community College. Actually, I would prefer more open spaces and less buildings
16	Online	c489e9de-2fcb-4bc3-846c-2976fb33c8e9	7/27/22	A healthy mix of both where possible		Around Sullivan Square
17	Online	7fd3d52c-54d7-44f9-88ae-d9ae82d3853b	7/27/22	Some preference for consolidated open spaces	We need more field space.	I believe Sullivan Square was a park/open space at one time. It should be open space and green. Put the traffic underground or above! Along the Mystic River should be green space with water access.
18	Online	fb593487-a9c6-4cbd-82a4-8e4b2990e001	7/27/22	Strong preference for consolidated open spaces		Everywhere. Along the river would be nice

Num	Paper or Online	GloballID	Creation Date	Scenario 2 prioritizes the creation of a greater number of consolidated open spaces with the potential to support sports fields in Charlestown, at the expense of some of the green corridor and new multi-use paths that Scenario 1 provides. Understanding this trade-off, open space configuration do you prefer?	What else would you like to share about park planning in Charlestown?	Where do you want to see new parks?
19	Online	29352a9b-4ecb-42a6-820f-7d352a4eef78	7/28/22	Some preference for consolidated open spaces	Traffic and pedestrian safety is a major concern. I live in the Lost Village/Little Neck area and it's a busy traffic route for cars exiting 93 and heading to the Innerbelt area.	Sullivan Square near Somerville line and along Mystic River
20	Online	3690d769-ae41-436c-8cf2-d236b50fa5bb	7/28/22	Strong preference for consolidated open spaces	We need green spaces designated for human children — not dogs! Every park in Charlestown is overrun by dogs of wealthy young people. Families who can afford to move out all leave once the kids get to school age. Poorer families are left, and the kids from these families grow up with minimal access to green spaces. I can't afford take my kid to be in nature more than once a week, on weekends. When we go walking to the Doherty playground, or along the mystic every evening, I can't even let him walk on the grass because it's all a dog toilet. Please, have dedicated green spaces FOR HUMANS. Perhaps the solution is to limit number of dogs in the city. Maybe it's more dog parks — I try don't know. But right now, because of excessive dog usage, kids are denied clean green spaces to play in.	Along the mystic river.
21	Online	efdcd659-8513-4a86-8145-0fb73b7a421e	7/28/22	Strong preference for consolidated open spaces	We would love it if you focused on spaces that could truly make Charlestown special! Green space for food truck Fridays, summer movie night spaces, summer concert series, splash pads, playgrounds, neighborhood block parties, outdoor yoga, etc. These kind of larger, consolidated spaces build togetherness and community vs greenery that is visually appealing, but utilized as mainly a walkway.	I'm a huge fan of more consolidated open spaces by Rutherford Ave and Medford St. These kind of spaces are more welcoming for the community, families, and residents of all ages, and encourage community events and gatherings. They give two 'rougher' parts of town destinations for other residents to visits, and an area for older kids/teens to hang and stay out of trouble.
22	Online	0dd6e578-820f-4cf5-8c3c-1d072442fb54	7/28/22	Strong preference for linear parks		Where ever possible! They will bring down the temps in the summer and provide shade for folks as they walk around Charlestown. Sullivan Square is extremely dangerous to walk to even during the day so I would love to see that area prioritized for safety and community rather than traffic and parking.
23	Online	5b988826-5e8c-4168-82fe-36fa2745c983	7/29/22	A healthy mix of both where possible	I've been looking at used barges. Its surprising how inexpensive they are does it make sense setting up a a few along Pier 10 in the Navy Yard? One as a floating pool, a pool house on another, and one or two setup as play areas either just open green space or offer Pickle ball/Tennis courts with netting around so the balls don't get loose!  The MultiUse pathing off of D St needs to connect to D St under Rt93. So its a beeline from Sullivan Sq for both Cambridge St projects. And allows the Lost Village folks a pathway to Hood Park and onwards.  This all needs deeper planning that what you have here.	If the costs of repairing/rebuilding Clougherty Pool is to expensive, does it make sense to create a new pool space down by the river? Maybe combining a river swimming area so the pool house can serve both.  Of course that likely who't fly with Flatley's vision. But that might be the better solution for the Pool and would offer more space for swimming and if Clougherty can be patched together for the short term prevent us from being without a pool.  The other option which I think is still better! Is to convert the Channel boat launch into a swimming space. If we do this first we can get the kids a place to cool off as the Clougherty Pool is rebuilt. Besides, with 6'7k more people Clougherty just can't handle the numbers of all of these inbound kids! So we do need a second outdoor pool space. The construction is not that difficult here, its the DPA zoning and ideally taking over the MassPort Annex property so the channel is fully park space.
24	Online	7c8285d0-87a0-4847-8156-48140e3ac6f1	7/29/22	Strong preference for linear parks	Hopefully they are plans to include funds for continual up keep and maintenance of these greenways and parks.	All Along The Mystic River .
25	Online	a49f79d2-41ca-4a54-8047-83d322ba6238	7/29/22	Some preference for consolidated open spaces	As much as possible, playing fields utilized by children should be located away or protected from I-93.	Along Mystic River, Sullivan Square, BHCC parking lots
26	Online	3e531a74-9417-4ec4-89ae-29c7e7213075	7/29/22	Some preference for linear parks	We need an off leash dog park somewhere in the area, preferably around the area of bunker hill community college. There is one currently at hood park, but it is temporary. This can be a huge benefit for the city, bringing more young professionals to Charlestown.	Bunker Hill community college and along rutherford ave
27	Online	8b754d2f-3868-4a0d-848d-e1dac449bcb7	8/1/22	Strong preference for consolidated open spaces	Given the number of families and children that live in Charlestown, I definitely want to prioritize sports fields for the kids - right now there is severe overcrowding at the high school and Barry Field, and hte conditions of the little league field could use investment as well. The families with children bring so much vibrancy to the neighborhood, and I would love to see their needs prioritized.	
28	Online	cd82f232-b309-426b-8018-a9fde1990da5	8/1/22	Some preference for linear parks	Charlestown overall really needs more trees. The lack of shade on many streets is unsightly and leaves no options for mitigating heat/climate change. While I agree that more sports fields would be nice, I think prioritizing a wider variety of greenspace across the neighborhood and along streets is really really important. Any scenarios that add more trees is what I am in favor of.	Sullivan Square is the biggest area that needs greenspace, as does Rutherford Ave. The Bunker Hill parking lots absolutely needs greenspace- this area seems like a vastly underutilized space. Along the Mystic could be such a valuable addition to the neighborhood if it was made accessible, nice and added greenery to the area.

40	Online	a308f43f-5619-4b4c-80e9-4acb48f1bd1c	8/3/22	Strong preference for linear parks	Charlestown proper is 'separated' from the Hood area, the water along Medford Street, the evolving Sullivan Square and Assembly Square. Open spaces themselves should be usable while also accomplishing a secondary (but not less important) goal of safe, convenient, and enjoyable connections to the water on Medford Street, MBTA Station and Assembly. Proposed developments and new street configurations being planned is a rare opportunity to eliminate these barriers - physical or perceived.	Charlestown proper is 'separated' from the Hood area, the water along Medford Street, the evolving Sullivan Square and Assembly Square. While the MBTA Station is in Charlestown, it too is 'separated' from the majority of the neighborhood by the chaos of Sullivan Square. Safe, convenient and comfortable connections though usable and enjoyable open spaces (that are part of street improvements) can possibly remove these barriers whether existing or perceived.  A sizable + very much usable area on the water should/could be created - not just a sidewalk where people are encouraged to move along to the next destination.  A BLVD (more similar to Commonwealth Ave with usable grass areas to congregate on vs. Seaport Blvd that is limited to unusable green spaces) starting at the end of Bunker Hill through to Somerville will help create safe, convenient, usable and enjoyable connections to the MBTA Station and Assembly.  New Hood open spaces should not be limited to use by that development.

59	Online	1d5ebd03-6086-46b7-8fcb-7f8e0571fe17	8/17/22	Some preference for linear parks	The linear park next to Rutherford Ave doesn't seem that nice. It's not long enough to be very useful for transportation, and it's so close to a major road that it won't be pleasant to be in. (Rutherford will be nicer than it is today but it will still be wide full of car noises and will be unpleasant to be next to). I'd prefer connected parks, greenways, and pleasant places for active transportation that aren't close to highways. Given that, I prefer option 2's smaller blocks over option 1's linear park.	Anywhere, as long as they connect to each other, which the plans show nicely. I like that! When I use greenspaces, I don't go to one spot and stay, I wander between them, or I enjoy the spaces as I go on non-recreational trips.
60	Online	7b6378db-743b-4706-8787-e90fd01c7399	8/19/22	A healthy mix of both where possible	Youth need upgraded fields. Well behind most towns	Bunker hill
61	Online	c962f394-da47-4c3b-89a3-a96bfb48d65a	8/19/22	Some preference for linear parks	Surprised to see a park at 92-100 Cambridge Street. Is this public land?  Don't believe the park next to the Community College T-station adds anything not already there.  Linear park connecting the T-stops at SullivanSquare & Community College is a great idea.	Wherever possible.

Num	Paper or Online	GlobalID	Creation Date	Scenario 2 prioritizes the creation of a greater number of consolidated open spaces with the potential to support sports fields in Charlestown, at the expense of some of the green corridor and new multi-use paths that Scenario 1 provides. Understanding this trade-off, open space configuration do you prefer?	What else would you like to share about park planning in Charlestown?	Where do you want to see new parks?
62	Online	71df930e-60f3-4333-82bf-7267bf88bdfb	8/21/22	Some preference for linear parks	thanks for doing these surveys; they're well done.	on the waterfront, somewhere in sullivan square
63	Online	7e5e1ca0-e717-43b1-848e-0f5b94df5c8e	8/22/22	Some preference for linear parks	I would love for routes to existing playgrounds and parks to be accessible for people in a wheelchair and people pushing strollers!	I think we need parks along Rutherford serving new developments, but they may also be very noisy and unpleasant places - will they have sound mitigation? Berms can be very effective but take up space and aren't usable park space.
64	Online	e78a4b6b-65bc-428c-86ca-1d098c5f5dde	8/22/22	Strong preference for consolidated open spaces		use of existing BHCC fields by the public and Charlestown organizations
65	Online	b193a328-7dd3-4dc1-824b-c81c2287db3a	8/23/22	Strong preference for consolidated open spaces	allocate more well lit and accessible play spaces where low- and middle-income families with children live	all of the above
66	Online	d8ab3fde-8602-42a9-81bf-468297850dde	8/24/22	A healthy mix of both where possible	Please incorporate dog friendly spaces within linear parks and greenways. And be none of these places restrict dogs. Here's why: on any given day, any time of the year, the majority of Charlestown residents who are actively using green spaces are doing so with their dogs. With the exception of sports (baseball fields/basketball courts), you'll see people walking their dogs or walking a dog alongside a stroller with a dog. Also, I've noticed that parents often throw birthday parties for kids in Dougherty Park quite often in the nice weather, so covered spaces that allow for small groups to throw kid's parties would be appreciated, I'm sure.	Along the Mystic River.
67	Online	a1a49347-6bd6-4a51-8339-fb720997ee22	8/24/22	A healthy mix of both where possible	Dog parks and pickleball courts (or multi-use game courts) would be great.	Around Sullivan Square- we need more dedicated dog parks. Right now we have several make shift options by Paul Revere Park (no fence) and Schrafft's (which I believe is leaving us shortly to be developed). Hood park is the only option that is fully enclosed and the park is actually a pad site for future development.

72	Online	d4eda064-87f4-4a09-8255-c129c4c62e46	8/28/22	A healthy mix of both where possible	More greenways, more trees. But please do not sacrifice vehicle/street space for wider sidewalks. With all the development going on around Charlestown now, the population is just getting more dense, and we need to have reasonable space for vehicles to park and travel. If the BPDA wants to keep approving residential construction projects, this needs to strong consideration. I, as a resident, am getting fed up with the constant gridlock brought on by overdevelopment.	I'd like to see more parks along the Mystic river. That area feels a little cut off from the neighborhood at the moment and I think most residents would enjoy increased access to the water views. I like the idea of extending Doherty Park across Medford St. it would be nice if residents could have green space all along the Mystic to enjoy.

139	Online	b705db54-cab5-442f-800b-2d3b34b8503c	9/15/22	Some preference for consolidated open spaces	The map here shows a triangle of "existing open space" at Warren and Park Streets near Chelsea St. A decade ago, the developer of the condominiums now standing (Warren Green) promised green space open to the public. However in a practical sense, it's not there. The space is primarily paved. The condo owners have posted "private property" signs along the space which effectively limits its use. There are a few benches on brick patio along Park St., but this is insufficient to what was promised. Please do not let developers mislead the public in this same way as the projects are implemented. While the city may claim rights to the land, it's not open space. Condo owners have claimed it as their property.	BHCC parking lot would be good. Along the Mystic River and Tobin, Along Rutherford Ave and/or towards Sullivan Sq.

Num	Paper or Online	GloballID	Creation Date	Scenario 2 prioritizes the creation of a greater number of consolidated open spaces with the potential to support sports fields in Charlestown, at the expense of some of the green corridor and new multi-use paths that Scenario 1 provides. 155	Online	ccf1a803-495f-4c8d-80d3-cf528e8e5a4e	9/19/22	Some preference for consolidated open spaces	Separated bike lanes and maximizing open space (both existing and, where needed, new) to increase areas for sports practices and games should be a priority. Our kids are being sent an hour away for "home" games due to lack of adequate field space.	I don't understand why Charlestown kids can't use the BHCC EXISTING fields for their sports practices and games. I've lived in Charlestown for 8 years and have NEVER seen them used.

				Scenario 2 prioritizes the creation of a greater number of consolidated open spaces with the potential to support sports fields in Charlestown, at the expense of some of the green corridor and new multi-use paths that Scenario 1 provides. Understanding this trade-off, open space configuration do you prefer?		
Num	Paper or Online	GlobalID	Creation Date		What else would you like to share about park planning in Charlestown?	Where do you want to see new parks?
156	Online	24056774-2df4-41c5-8d87-69888a3c46d4	9/19/22	Strong preference for consolidated open spaces		We suggest adding that the Bunker Hill Parking Lot area would be an ideal location for "NEW" field space as the BPDA owns this land and it is under consideration already.
157	Online	5d6c0bc4-d3ef-478d-885a-cf8d01b58d34	9/20/22	Strong preference for consolidated open spaces	If you want people to stay in Charlestown long term, you need to prioritize useable fields, playgrounds and open spaces. We have a million kids squished onto one or two fields. We have 8 year old kids practicing soccer until 9pm at night because there's not enough field space for everyone to practice at a reasonable time. We have a wonderful sports program that can't function properly because of our lack of space. Linear parks and greenways are useless....they are pretty to look at but no one sits along them and spends time enjoying them. They are just a pass through. We need FUNCTIONAL spaces!	I would love to see new parks along the Mystic River and utilizing the area by Bunker Hill Community College. Useable spaces are MUCH needed in this neighborhood filled with kids and dogs. Linear parks are pretty but NOT functional!
158	Online	9fe6c622-58f2-4fab-8c88-c7d988240676	9/20/22	Strong preference for consolidated open spaces	Too many families leave Charlestown. By having more park planning in the main part of Charlestown will go a long way towards keeping families here. Less emphasis on Rutherford side which seems more transitional.	Along mystic river makes most sense. Doesn't affect traffic too much. Underutilized space. New parks at Bunker hill CC might be hard for most residents to get to.
159	Online	64642425-ae45-4252-8caf-480b752ffe95	9/21/22	Some preference for consolidated open spaces	Why aren't Charlestown kids allowed to use the existing BHCC athletic fields for sports practice and games? It's a highly underutilized resource and currently there is not enough space between Barry Field (which has not been maintained and a terrible place to practice) and the Charlestown HS fields (which are about to be torn out for replacement starting in mid-October).	BHCC parking lots, Schrafft parking lots, Pier 5 in the Navy Yard, Hood Park complex (assuming more pedestrian connections to Charlestown).
