TO THE CITY COUNCIL

Dear Councilors:

I hereby transmit for your consideration and approval: *An Ordinance creating the Planning Department in the City of Boston.*

For decades, and in contrast to nearly all other major cities, the City of Boston has not had a City Planning Department. This Ordinance will restore planning as a core City function with the same accountability and oversight as all other City departments, by codifying the transition of former Boston Planning and Development Agency (BPDA) staff to a new City Planning Department. The language of this Ordinance also sets the parameters for an effective and sustainable, budget-neutral transition that ensures continuity for critical aspects of staff members' employment benefits.

It is critical that Boston's continued growth should create much needed housing and support a thriving downtown, vibrant neighborhood business districts, and a strong regional economy for healthy, connected communities. This Ordinance is one piece of our administration's plan to implement reforms that chart the course for comprehensive planning, updated zoning, integrated urban design, and predictable development review to achieve those goals. This Ordinance complements several major initiatives undertaken over the past two years, including:

1. **A home-rule petition** passed by your honorable body last April and under review by the State Legislature that would end Urban Renewal, abolish outdated structures, and modernize the focus of our authority away from targeting so-called "blight and urban decay" and instead to enacting affordability, equity, and resiliency citywide;
2. **Restructuring the BPDA** to shift the focus and culture of our work by elevating planning with distinct teams focused on zoning compliance and comprehensive planning that are separate from development review, and elevating design in its own division. In addition, the housing compliance team formerly at the BPDA has already been transferred to the Mayor's Office of Housing which has a robust compliance function to enforce affordability requirements;

3. **Coordinating citywide planning and implementation** by creating the Planning Advisory Council that brings together all cabinet agencies responsible for planning the built environment to establish collaboration and coordination on comprehensive community driven planning, including Streets; Housing; Operations; Finance, Environment, Energy, and Open Space; Equity; Economic Opportunity and Inclusion; and Arts and Culture;
4. **Working to update Boston's zoning code** through completion of neighborhood planning processes inherited from previous administrations and launching Squares + Streets, the first major rezoning effort in decades, focused on neighborhood commercial business corridors that are close to transit and that would benefit from greater housing density and affordability; and
5. **Modernizing development review** through a process to evaluate and improve the Article 80 development review parameters for the first time since its creation, with a mission to enhance predictability and transparency.

In establishing the Planning Department and implementing the reforms above, the City of Boston will transition away from a reactive approach centered on responding to private development proposals, to instead planning proactively for the needs of Bostonians with coordinated citywide efforts for direct accountability, transparency, community engagement, and predictability.

This Ordinance includes three major components:

1. **Codify the purpose and powers of the Planning Department:** The Planning Department's purpose will be to develop comprehensive short and long term plans for Boston's built environment, establishing a consistent and predictable zoning code for the City, advancing exceptional and inclusive design standards, providing predictability to guide development that is responsive to community needs, and planning for the effective use of public real estate. The new City department will retain and clarify all the existing functions of the BPDA. In its current form, the BPDA Board will still function as the Planning Board and approval authority for Article 80 projects, completed plans with zoning language to be further approved by the Boston Zoning Commission, and other land use actions.
2. **Enable financial transfer between the City of Boston and the BPDA:** The creation of a Planning Department will be a budget neutral transition for the City of Boston. For the last several decades the BPDA has been a self-financed entity not tied to direct City oversight, and the Agency had the sole authority to allocate its budget for the functions carried out by staff. Under this Ordinance, the BPDA will transfer funds to the City of Boston in order to financially support the new Planning Department and enable it to carry out its duties as approved through the standard City Council and Administration budget process for all City departments. This act sets forth the mechanisms for this regular transfer of funds to cover the expenses incurred by the City of Boston for performing

these functions, which will include staff payroll, service contracts, property maintenance, administrative expenses, and more.

- 3. Ensure continuity of employment conditions for existing staff:** Part of ensuring a stable transition during the creation of the Planning Department is guiding the seamless transition of current BPDA staff to the City of Boston. This act preserves the residency policy requirements under which existing staff were originally hired. In addition, the Home Rule Petition approved by the Council last year and currently under review by the State Legislature would allow former BPDA employees to purchase their EDIC service time in the City of Boston's pension system. Currently, EDIC staff within the BPDA participate in a 401(a) retirement plan program that the City of Boston is restricted from offering. For this reason, current BPDA staff who are over 5 years of service or over 50 years old shall be given the opportunity to elect to stay on the BPDA payroll for the remaining tenure of their service for the sole purpose of retaining the 401(a) program if they do not wish to move to the City of Boston pension system. Staff that choose to preserve this retirement benefit will be treated in the same manner as City employees in every other respect and integrated into the management structures of the relevant City department. These employment steps will enable the vast majority of current BPDA staff to start on the first day of the new budget year (July 1, 2024) as City of Boston employees. After this date, no new employees would be hired to the BPDA, and all new hires supporting these functions will be hired within the City of Boston.

This Ordinance clarifies the functions needed for community-grounded planning to address the urgent and long-term needs of our residents and our city. I urge your Honorable Body to act favorably on the ordinance to help guide us toward a better future together.

Sincerely,

Michelle Wu  
Mayor of Boston
