Why Convert Office to Residential Now

“ Boston Context ”

- Boston downtown office vacancy \approx 20%
- Average Boston office occupancy \approx 60%
- Employers shift to high amenity new buildings (i.e. RTO)
- Class B & C office buildings are most at risk
- Continued need for Office-to-Residential Conversion Program in 2026

Goals of Mayor Wu's Conversion Program

Office conversion is one tool that can be utilized in combination with other City actions to revitalize Boston's Downtown.

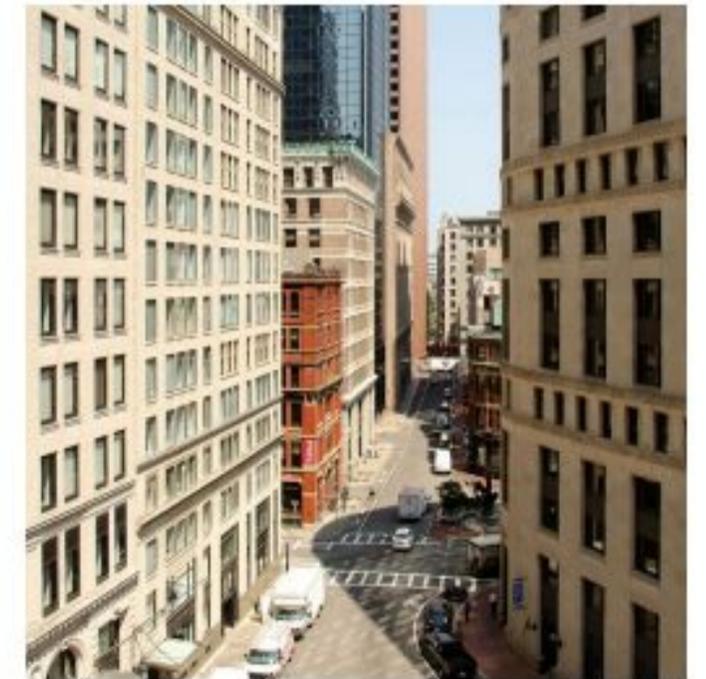

Bring new life to vacant Class B & C office space negatively impacted by the pandemic

Create much needed housing Downtown, including affordable rental units on site

Build a more vibrant urban core by preserving ground floor retail space to drive foot traffic

Improve sustainability and eco-friendly development by encouraging adaptive reuse of existing buildings

Facilitate repurposing of older underutilized office buildings into new mixed-income, multifamily residential rental units across the city

- **29 year - 75% residential abatement**
- As-of-right zoning for change of use (*in Downtown and where applicable*)
