Charlestown

Charlestown is the city's oldest neighborhood, founded a year before Boston, in 1629. Today, it is a neighborhood of working families, including many long-time residents, and young professionals, many new to the city.

Much of the original town was burned to the ground by the British following the Battle of Bunker Hill in 1775. Rebuilt soon after, the town's economy historically has been centered on the waterfront. The Charlestown Navy Yard (est. in 1800) was, for more than 150 years, the most important such facility on the East Coast, manufacturing first all of the rope used by the United States Navy, then much of the chain, as well as building and repairing ships.

The Warren Street Bridge first connected Charlestown to Boston in 1828. After incorporating as a city in 1847, Charlestown became part of Boston in 1874. The Mystic River Bridge (today's Tobin Bridge) opened in 1950 connecting Charlestown to Chelsea and communities north of Boston. In 1974, the federal government closed the Charlestown Navy Yard, but it has since been successfully converted into a mix of industrial, research, and residential uses.

Charlestown's commercial activity today is centered on Main Street, from City Square to Thompson Square. Open space is provided by a number of waterfront parks.

I. NOTES TO THE READER

1. Two of the important US Census 2000 data files used in the compilation of demographic reports are Summary File 1 (SF1) and Summary File 3 (SF3). SF1 uses the Short Form questionnaire while SF3 uses the Long Form Questionnaire. Moreover, SF1 is a 100% count giving data to the smallest level of census geography, the Block. SF3 is a sample count of 16% of the population giving data to the Block Group level which is a cluster of Blocks. In the aggregation of SF3 data for this report, the Planning Districts straddle Block Groups boundaries. These will have slightly different numbers from those aggregated using the SF1 data. Total population of the planning district, for example, the South End based on SF1 may show slightly different numbers if compiled using SF3. (See Appendix for a brief description of census geography. Short Form and Long Form Questionnaires can be found on the US Census Bureau website, American FactFinder: <http://factfinder.census.gov>)

2. Because of changes in the boundaries of Block Groups between 1990 and 2000, precise comparison of 1990 and 2000 data on Planning Districts/Neighborhoods is not possible.

3. Racial categories of population are limited to six. Hispanic population may be included in any racial group. White alone population includes Hispanic whites. The category of persons belonging to One or More Races is termed Multiracial.

4. Numbers within parentheses at the end of the table title represent table numbers assigned by the US Census. These table numbers are useful in accessing data using American FactFinder for different types of geography such as a Census Tract or a city. A list of P (Population) and H (Housing) Tables, which provide data at the Block Group level, is given in the Appendix. **This report aggregates only Block Group level data as done for all the Planning Districts. However, data available only for Census Tracts can be aggregated to Boston city to generate a more extensive set of characteristics. Complete census tract data can be found on the US Census website.**

5. While variables are retained in their original form, some of their class intervals have been aggregated into fewer intervals to make the tables simpler.

6. Some tables include additional derived data such as medians or per capita incomes.

7. For definition of terms, please see "Census 2000 Glossary", which is published as a separate document (Report # 568) by the BRA .

8. Income-related data such as household income, poverty rates, etc. refer to year 1999.
