

MINUTES  
**DESIGN COMMITTEE OF THE BOSTON CIVIC DESIGN COMMISSION**

November 27, 2018

5:00pm, Room #937A, 9th Floor, Boston City Hall

Project: **60 Kilmarnock Street**

Present: Eric Höweler, Andrea Leers, David Manfredi, William Rawn

DISC

USSION: The team presented a refined design approach in response to issues raised at previous Design Committee meetings on September 11 and October 16. The refined facade designs were complemented. The building connection over the alley remained central to the Commissioners' conversation and critique.

The Project team used a digital presentation and a model to outline their approach and the Project updates and answered questions from the BCDC Commissioners present. The Project will return to Design Committee.

6:00pm, Room #933A, 9th Floor, Boston City Hall

Project: **Hood Park PDA NPC and 10 Stack Street**

Present:

DISCUSSION: The project team presented the strategy for the Hood Park Master Plan, focusing on street networks and open space connections. The latter portion of the presentation and discussion centered on the 10 Stack Street building. Commissioners expressed desire for a clear framework and a simplified, consistent approach to the design of each building within the Master Plan. The Commissioners suggested refining the relationship of 10 Stack to Stack Street and looking at the complexity of the massing and facade.

The Project team used a digital presentation and two models to outline the Project and answered questions from the BCDC Commissioners present. The Project will return to Design Committee.
